Australasian College  
for Infection Prevention and Control

# INFECTION PREVENTION AND CONTROL IN RESIDENTIAL AGED CARE FACILITIES

**International  
Convention Centre,  
Sydney & Online**

**Sunday  
13 November  
2022**

**10:00  
to  
16:30**

**The aim of the Infection Prevention and Control in Residential Aged Care Facilities Workshop is to work with participants to establish a greater understanding of the IPC Lead role and responsibilities at both national and organisation levels. The benefits, challenges and learnings will be discussed in order to inform the mandatory framework, identify support initiatives and promote success.**

The workshop is targeted at those nurses who are new or experienced in the IPC Lead role, those responsible for clinical governance within their organisation, educators, aged care providers, quality assessors and those who may be seeking to introduce the IPC Lead program into the home care service setting.

## **SPEAKERS INCLUDE**

- Christine Morrison, Practice Facilitator – Infection Control, Anglicare
- Steve McNamara, Assistant Director of Nursing – Aged Care, Rural Division Darling Downs Health
- Megan Reilly, Director, Hands-On Infection Control
- Dr. Sally Havers, Clinical Nurse Consultant, Infection Prevention & Control, Clinical Governance Unit, Toowoomba Hospital
- Jane Mbole, Infection Control Consultant
- Dr Lisa Hall, Associate Professor of Epidemiology, Director of Teaching and Learning, School of Public Health, University of Queensland
