

Infection Prevention and Control Daily Monitoring Checklist

Once the project has commenced, the work site should be monitored daily.

Date of assessment:			
Location of work:			
Project no.			
Completed by:			
1. Administration	Ansv	ver (circle	one)
Permit is in place for project, as specified for project class	Yes	No	NA
Signage is in place to restrict public access	Yes	No	NA
Signage is in place to instruct doors to remain closed to contain dust	Yes	No	NA
2. Construction barriers	Ansv	ver (circle	one)
Hoarding type is appropriate for project and location	Yes	No	NA
Hoarding is dust tight and sealed	Yes	No	NA
Dust/Walk off mats present at entry/exit	Yes	No	NA
All access doors close and seal properly	Yes	No	NA
All access doors are closed to the public	Yes	No	NA
Ventilation ducts to building site are covered	Yes	No	NA
Ventilation ducts to building site are covered 3. Adjacent areas with staff / patient access		No ver (circle	
			one)
3. Adjacent areas with staff / patient access	Ansv	ver (circle	one) NA
3. Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed	Ansv Yes	ver (circle No	NA one) NA NA NA
3. Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked	Ansv Yes Yes	ver (circle No No	one) NA NA
B. Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently	Ansv Yes Yes Yes	ver (circle No No No	one) NA NA NA
3. Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently Walls intact and dry	AnswYesYesYesYes	ver (circle No No No No	one) NA NA NA NA
 Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently Walls intact and dry Horizontal surfaces dust free 	AnswYesYesYesYesYesYes	ver (circle No No No No	one) NA NA NA NA NA
 Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently Walls intact and dry Horizontal surfaces dust free Vents dust free 	AnswYesYesYesYesYesYesYes	ver (circle No No No No No	one) NA NA NA NA NA
 Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently Walls intact and dry Horizontal surfaces dust free Vents dust free All ventilation ducts from building site sealed 	AnswYesYesYesYesYesYesYesYesYes	ver (circle No No No No No No	one) NA NA NA NA NA NA
 3. Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently Walls intact and dry Horizontal surfaces dust free Vents dust free All ventilation ducts from building site sealed No signs of pest infestation 	AnswYesYesYesYesYesYesYesYesYesYesYesYes	ver (circle No No No No No No No	one) NA NA NA NA NA NA NA
 Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently Walls intact and dry Horizontal surfaces dust free Vents dust free All ventilation ducts from building site sealed No signs of pest infestation No signs of water leakage 	AnswYesYesYesYesYesYesYesYesYesYesYesYes	ver (circle No No No No No No No	one) NA NA NA NA NA NA NA One)
 3. Adjacent areas with staff / patient access Ceiling areas intact and dry, tiles replaced when not accessed Floor areas cleaned with no dust tracked Sticky mats are cleaned and changed sufficiently Walls intact and dry Horizontal surfaces dust free Vents dust free All ventilation ducts from building site sealed No signs of pest infestation No signs of water leakage 4. Traffic flow 	AnswYesYesYesYesYesYesYesYesYesYesYesAnsw	ver (circle No No No No No No ver (circle	one) NA NA NA NA NA NA
